21	Anthony Bowles	Bolton Clarion	29.47		1
Time Keepers : Irene Gunn, Dave Richey and Alan Stark					
Marshalls : Margaret Biggs, Julia Staples, Bill Lloyd, Dave Hilton, Jim Gunn, Tony					
Conditions: Bright and Dry with a medium NW breeze					
Notes: A motorist complained to the timekeepers about riders " all over the road" along North Road, carrying out a dangerous passing manouvre on a slow moving vehicle and shouting abuse.					
The motorist was both aggressive and abusive and threatened reporting the matter to the police.					
The incident in question was witnessed by our marshall stationed at the junction of North Road, and who reported that a vehicle had just passed a rider on the approach to the junction, turned in to North Road and appeared to deliberately slow down once round the corner baulking the rider and leaving the rider little option but to overtake or come to a virtual stop. Apparently the cyclist shouted at the motorist.					
Unfortunate incidents like this , if reported to the police, could lead to us losing permission to hold the time trial series in future					
We share the road with other road users and it is our obligation to treat other road users with a degree of caution and respect - even if little is shown by many motorists to cyclists in return
